Interesting facts

- ◆ The film was shot in the Wadi Rum desert, in Jordan, also known as Moon valley.
- ◆ 50 pages of script consisted of NASA's material.
- ◆ Shooting the film took around 70 days.
- ◆ Mission to Mars described in the film, it is an imitation of the real mission, which NASA is planning in the future.

Backstage

Awards

- ◆ Film received several accolades, including the Golden Globe Award for Best Motion Picture – Musical or Comedy, and seven Academy Award nominations, including Best Picture and Best Adapted Screenplay for Goddard. For his performance, Damon received several awards nominations, including the Academy Award for Best Actor, the BAFTA for Best Actor, the Critic's Choice Award for Best Actor, and he won the Golden Globe for Best Actor in a Musical or Comedy.

My opinion

◇ *It is one of the most powerful films I've ever seen. It's not just a typical science fiction, but also drama and comedy. I like the play of the main actor. I find this film interesting and exciting. I recommend this film for family viewing.*

#TheMartian

A hand is holding a clapperboard. The clapperboard has a black top bar with white chevron patterns. The main body of the clapperboard is white and has the text "THANK YOU FOR YOUR ATTENTION" written in black, bold, sans-serif capital letters. The background is a bright, slightly blurred studio setting with a light blue wall and two studio lights on tripods. The lighting is soft and even.
