

MAYAN CIVILIZATION

Kruglov Egor 10 A class

- I want to tell about ancient Mayan Civilization because this topic seemed interesting and mysterious for me

Mayan territory

The border of the Mayan civilization is marked in red. Black — territory of Mesoamerican civilization

- *The beginning of the formation of civilization dates back to 2000 BC-250 ad, most Mayan cities reached their peak in 250-900 ad.*

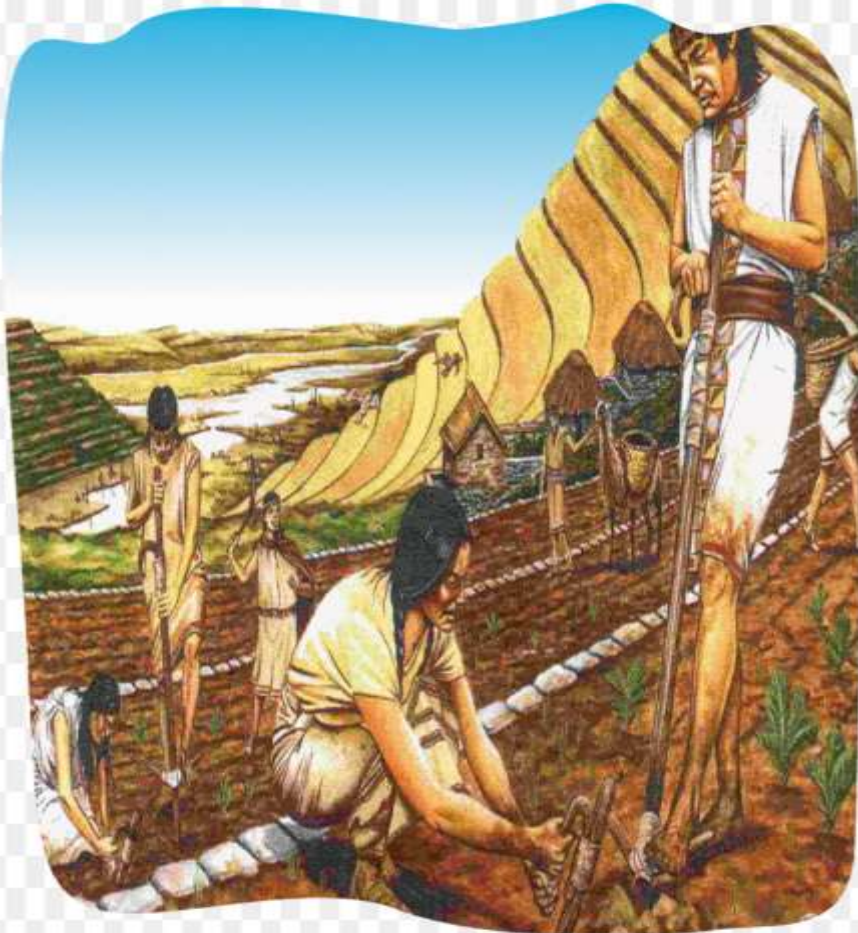

The appearance of the Maya today can not be attributed to any of the races

The faces of the Mayan tribes are broad cheekbones and aquiline noses. The men were slightly taller than the women, and their height was about one and a half meters – the average height of a modern teenager

The main crop was maize and beans, which formed the basis of the diet. Cocoa beans, which were also used as an exchange unit, were of particular value

One of the most famous finds is the
Mayan calendar

Another famous Mayan structure
is the pyramids

The Maya civilization disappeared as a result of abrupt climate changes, and as a result of military conflicts that were waged between city-States.
